Water based
Strato
Made by **eukula**

- eukula** - **the best in wood floor protection**
- Strato** - **the water based, environmentally friendly product range and its most important features**

KEEP IT SIMPLE SHORT

- Strato 101** Wood Adhesive Binder,
our best water based wood adhesive binder
- high solid content (39%)
 - excellent filling power
 - fast drying, approx. 30 min.
 - easy to sand
 - optimum colour matching
 - no darkening of joints/gaps under oil or hardwax oil

- Strato 200** Primer
- reduces lateral bonding
 - good elasticity
 - recommended on underfloor heating, planks, floor boards, sports floors
 - no intermediate sanding before seal coating, i.e. less labour cost and dust
 - cheaper than a finish coat
 - min. two coatings on one day (primer + finish)
 - fast drying, approx. 30 – 90 min.
